

Abrechnung Stickmaterial

Stickgarn

Die Abrechnung des Stickgarns kann über das Gewicht oder die Garnlänge geschehen.

Die Garnlänge kann über Inkstich bestimmt werden. Erweiterungen --> Ink/Stich --> Visualisieren und exportieren --> PDF Export. In der Ansicht unter Settings die "Estimated Thread" Faktoren auf Upper Thread 3 und Bobbin 2 Einstellen und Thread Length aus Dokument entnehmen (Bild 3)

Factors

The thread length calculation depends on a lot of factors in embroidery designs. We will only get a very inaccurate approximation. Ink/Stitch simply calculates the path length, so the factor of 1 will always be much, much less than the real thread consumption.

Set a factor to multiply the path length with, depending on your standard setup or adapt it to your current design (tension, thread, fabric, stitch count, etc.).

Upper thread

* path length

Bobbin

* path length

Save as defaults

Design box size: 25.0mm X 31.5mm
Total thread used: 5.52m / 3.68m
